Hello Ben:

I understand how we all get caught up. The good part is (so far) I'm Cancer Free with an "excellent prognosis" and I have had to make some adjustments. Some are temporary and some are life changes. This is the biggest surgery I've ever had and the recovery is good, but very slow. I tire easily - can't return to working out except for walking and have been told that "a full recovery back to normal" can take at least 4-6 months.

Thanks for asking and I hope you and Susan are also both doing well.

Hey John,

Just a quick note to see how you are doing. I'm sorry it has taken so long. I thought to email several times, but work has just taken over everything and the drive does take a toll at times. Please let me know how you're feeling and if there is anything I can do to help in any way.

Ben
